Bibliography

The following books are also available on the topic of airplane design.

- 1.25 Corke, T.C "Design of aircraft" Pearson, (2002).
- 1.26 Raymer, D.P "Simplified aircraft design for home builders" Conceptual Research Corporation, (2002).
- 1.27 Heintz, C "Flying on your own wings - Complete guide to understand light airplane design" Trofford, Third Edition, (2011).
- 1.28 Torenbeek, E. "Advanced aircraft design: Conceptual design, technology and optimization of subsonic civil airplanes" Wiley, (2013).
- 1.29 Gudmundsson, S "General aviation aircraft design" Elsevier, (2014).

In addition to the books mentioned above, the following journals may be consulted for current information on aircraft design:

- Aeronautical Journal
- Aerospace America
- Aircraft Design.
- Aircraft Engineering
- Aviation Week & Space Technology.
- Flight International.
- Interavia.
- Journal of aircraft.
