

Proteomics Course

LECTURE-17 Difference gel electrophoresis (continued) Discussion and data analysis

Dr. Sanjeeda Srivastava
IIT Bombay

Previous lecture

- Challenges of 2-DE
- 2-D Difference Gel Electrophoresis (2D DIGE)

Today's lecture

- Discussion on gel-based proteomics
 - DIGE
- DIGE data analysis and interpretation

Summary

- Gel-based techniques
- 2-DE work-flow
- Challenges associated with 2-DE
- Difference Gel Electrophoresis
