

Assignment 33

(A) Develop trees of words etymologically connected to any five of the following words/roots:

dictum (saying), line, note, part, pend, posit, sign, solve, tract, vert/vers (to turn);

mentioning the part(s) of speech against every word in them.

(B) From any one of the trees, pick up a few words and build **10 sentences** out of them to illustrate their parts of speech; taking among them **at least one noun, one verb, one adjective, one adverb, and as many words belonging to multiple parts of speech** as possible.

[For a word belonging to multiple parts of speech, its use in the different roles should appear in the illustrative sentences.]
