

Digital Image Processing - Video course

Topic	No. of Hours
1. Introduction to Digital Image Processing & Applications	1
2. Sampling, Quantization	2
3. Basic Relationship Between Pixels	2
4. Imaging Geometry	3
5. Image Transforms	5
6. Image Enhancement	3
7. Image Restoration	4
8. Image Segmentation	4
9. Morphological Image Processing	2
10. Shape Representation and Description	3
11. Object Recognition and Image Understanding	3
12. Texture Image Analysis	3
13. Motion Picture Analysis	2
14. Image Data Compression	3
Total:	40
